The ultimate steam-cleaning machine

Chemical-ready and vacuum-equipped, the lab-certified SDV models are built for heavy-duty, multi-purpose cleaning and disinfection. By offering detergent-injection in addition to standard steam-cleaning, both models make it easier to disinfect and dry the toughest, most hazardous environments. The smaller-capacity 4500 is ideal for shorter-duration use, while the full-size 8000 can run for up to 12 hours without a break.

- 4.5 bar pressure (SDV4500) or 8 bar pressure (SDV8000), with 1.8L or 3.3L boiler capacity respectively
- Maximum continuous use: 6 hours (SDV4500) or 8 hours (SDV8000) with continuous-fill boiler
- Detergent-injection system for lab-certified sanitization
- Removable waste-water tank with locking lid
